Office Action Summary	Application No. 10/009,658	Applicant(s) NIEMI ET AL.	
	Examiner Norman M. Wright	Art Unit 2134	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Oath/Declaration

2. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not state that the person making the oath or declaration believes the named inventor or inventors to be the original and first inventor or inventors of the subject matter which is claimed and for which a patent is sought.

It does not state that the person making the oath or declaration has reviewed and understands the contents of the specification, including the claims, as amended by any amendment specifically referred to in the oath or declaration.

It does not have a ribbon properly attached.

Claim Rejections - 35 USC § 102

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-8 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Patel, U.S. Pat. No. 6,918,035, hereinafter '035.
4. As per claims 1-8, '035 teach a method for two part authentication and key agreement comprising: a first and second party (figs. 1-3, vlr, and mobile), calculating an authentication message (mac), a first value, by a first party being valid for one

Art Unit: 2134

connection only, a counter value by a second party, a cellular telecommunication network, mobile station, the authentication value of a message based upon a second value specified by a first party/agreed upon parameters, a first pseudorandom value, an initial value for counter, producing a third value/ session key or Hmac, a radio network controller (Ac/Hlr), see (entire document particularly figs. 1-3, col. 1, lines 27-31 and 59-65 et seq., col. 2, lines 1-65 et seq., col. 3, lines 5-10, and 25-47 et seq., col. 4, lines 9-15, and 25-42 et seq., and col. 5-6). As per the SIM card '035 teaches that an A-key is stored in the mobile (col. 2, lines 5-7). It is inherent that the mobile has a card for storing the identification and authentication information, and this storage device is commonly termed a SIM card.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
